Leviticus 15.

The following is a brief overview of the main topics.
Thankyou for visiting; Bible House Of Grace.

LAWS THE LORD GAVE MOSES REGARDING BODILY DISCHARGES.

Laws for man who has discharge that runs from his body
or his body is blocked up by his discharge.

When a man has a discharge from his body, the discharge is unclean, every bed that the man lies on and everything that he sits on would be unclean anyone who touched his bed was to wash their clothes and bathe in water and would be unclean until evening. Whoever sits on anything the man with the discharge had sat on or whoever touched his body was to wash their clothes and bathe in water and be unclean until evening. If the one with the discharge spat on someone clean they were to wash their clothes and bathe in water and would be unclean until evening, any saddle on which the one with the discharge rides would be unclean, if anyone touched anything that was under him they would be unclean until evening and whoever carries such things shall wash their clothes and bathe in water and be unclean until evening.

If the one with the discharge touched anyone without washing his hands they were to wash their clothes and bathe in water and would be unclean until evening. Any earthenware vessel that the one with the discharge touched was to be broken and every vessel of wood was to be rinsed in water.

Laws for when the one with the discharge is Cleansed.

He was to count 7 days for his cleansing and wash his clothes, then bathe his body in fresh water and he would be clean. On the 8th day he was to take two Turtledoves or two Pigeons, one bird for the Sin offering and the other bird for the Burnt offering then take the two birds to the entrance of the Tent of Meeting and give them to the priest and he would make Atonement for the one with the discharge before the LORD.

Laws for a man who has an Emission of Semen.

If a man had an emission of semen, he was to bathe his whole body in water and every garment and every skin on which the semen touched was to be washed with water and the man and the garment would be unclean until evening and if a man lies with a woman and has an emission of semen, both of them were to bathe themselves in water and would be unclean until evening.

Laws for a woman who has a Menstrual Discharge.

When a woman had a discharge of blood she was to be in her menstrual impurity for 7 days, whoever touched her would be unclean until evening; everything on which she sat or laid on during her menstrual impurity would be unclean. Whoever touched her bed or anything on which she sat was to wash their clothes and bathe themselves in water and would be unclean until evening and if a man lies with her and her menstrual impurity comes upon him he would be unclean 7 days and every bed he lies on would be unclean.

Laws for a woman who has a discharge of blood that is not her menstrual impurity.

As in the days of the woman's impurity, she would be unclean, every bed on which she lays and everything on which she sits would be unclean, and whoever touched these was to wash their clothes and bathe themselves in water and would be unclean until evening.

When the woman is cleansed of her discharge, she shall count for herself 7 days and after that she shall be clean. On the 8th day she was to take two Turtledoves or two Pigeons, one was for the Sin offering and the other for the Burnt offering and bring them to the priest, to the entrance of the Tent of Meeting and the priest would make Atonement for her before the LORD for her unclean discharge.

The population of Israel was to be kept separate (quarantined) from those that were unclean or they might die in their uncleanness by defiling the LORD'S Tabernacle (or His Presence) that is in their midst. (Lev 15:31). It appears God took every precaution to prevent any disease spreading in Israel's camp (Remember they did not have the medical items available that we take for granted today, nor did they have hot and cold showers available for every household).

End.
