Bible House of Grace contains an easy to read New and Old Testament commentary full of spiritual treasures and pearls, complete with an insightful resource guide illuminating God's love and grace.

Although I believe my aim is pure and God's will perfect this document is still the product of a human man, as to such I neither claim perfect knowledge or perfect understanding.

Fantasy of the Mind, Superstitions, and Imagination.

It is a principal of human nature that our nervous system cannot tell the difference between a real image pictured on the screen of our imagination and an imaginary image. This is why tears come to our eyes during sad scenes in a movie, and why we experience overwhelming joy in joyful scenes, even though it is all pretend and just actors playing the part

It is also why deception is so powerful and why people believe

- False religions, and new age spiritual and mystical philosophies.
- Conspiracy theories.
- Aliens visited them and such like things.

Are a true, even though they have no evidence to support what they believe. Based upon emotions and feelings, many, trust in their own superstitious and illogical stories created in their imagination by strong belief, and embrace anything that supports their delusional belief system without question, often believing it is of God. This same principle applies to emotions, because emotions act on what picture is being played out on the screen of our imagination, if it is a sad scene our emotions will respond with sorrow accordingly, likewise if it is a happy scene, our emotions will be joyful. This reality does not mean emotions are bad and should be rejected, but rather, whether feeling sorrow or joy they should be fully embraced, but it does mean they should not be the foundation of a Christian's faith. The foundation our faith should be built upon is the evidence we have been given in the Bible, such as:

- The prophecies of the Bible that have been fulfilled amazingly fulfilled hundreds of years later.
- Israel's history, and the wonder the tiny nation still exists, especially since throughout all history, mighty nations and their fierce and powerful armies have attempted to wipe them of the face of the earth.
- Creation preaches the existence of God
- Archaeology proves and enormous amount of Bible history.
- The wonder of God's word, written by 40 different authors, from different countries and different time periods, and yet it carries the same theme from Genesis to Revelation.
- The fact the Bible clearly and perfectly describes our human nature.

Facts like this give full assurance that our passion for Christ, and our feelings and emotions are not a fantasy of the mind established by a strong believe, but are a result of our true connection to God and His love, and evidence our union to Christ's love and grace and our faith is built on a solid foundation.

As the founder of Bible House of Grace, I would like to thank the many Christian scholars, commentators and theologians who have gone before me, and the many today, who have freely made available their works to enhance the knowledge of the Bible to all people worldwide. It is only with the help of these faithful writers that much of Bible House of Grace exists as it does today.
