**The Wealth
of the
Catholic Church**

(2019)

Bible House of Grace contains an easy to read New and Old Testament commentary full of spiritual treasures and pearls, complete with an insightful resource guide illuminating God's love and grace.

Although I believe my aim is pure and God's will perfect this document is still the product of a human man, as to such I neither claim perfect knowledge or perfect understanding.

The Wealth of the Catholic Church.

The Vatican has the following two main entities:

1. The Holy See, which governs the Catholic Church.
2. The Vatican City State, which governs Vatican City.

The Vatican bank is a separate entity from the Vatican itself.

The following is taken from Avro Manhattan book titled: "The Vatican Billions.". In this book we are given the following glimpses of the true financial worth of the catholic church:

- The Vatican has large investments with the Rothchild's of Britain, France, and America, and with the Hambros Bank, and the Credit Suisse in London and Zurich.
- In the United States, it has large investments with the Morgan Bank, the Chase-Manhattan Bank, the First National Bank of New York, the Bankers Trust Company, and others.
- It has billions of shares in the most powerful international corporations such as Gulf Oil, Shell, General Motors, Bethlehem Steel, General Electric, International Business Machines, T.W.A., etc."
- A high-ranking member of the New York Catholic Conference, stated, 'that "his church probably ranks second only to the United States Government in total annual purchase of real estate."

Another nationally recognised Catholic priest, managing large transactions for the Catholic Church made the following statements:

- The Catholic church, must be the biggest corporation in the United States, having a branch office in every neighbourhood.
- Their assets and real estate holdings must exceed those of Standard Oil, A.T.&T., and U.S. Steel combined.

The Vatican has been increasingly orientated towards the U.S, and when all the assets of the Catholic church are put together, it is the most formidable stockbroker in the world.

The Wall Street Journal: states the Vatican's financial deals in the U.S. alone were so big, that very often it sold or bought gold in lots of a million or more dollars at one time." Its treasure of solid gold has been estimated by the United Nations World Magazine to amount to several billion dollars. A large bulk of this is stored in gold ingots with the U.S. Federal Reserve Bank, while banks in England and Switzerland hold the rest. But this is just a small portion of the wealth of the Vatican, which in the U.S. alone, is greater than the wealth of the five wealthiest giant corporations of the country.

Added to this enormous wealth and riches of gold is:

- Their real estate, property, stocks and shares abroad.
- The donations over 1 billion followers give to their local churches.

This staggering accumulation of the Catholic Churches wealth, makes it the biggest financial power, wealth accumulator and property owner in existence. It is a greater possessor of material riches than any other single institution, corporation, bank, giant trust, government or state of the whole globe. The Pope, as the visible ruler of this immense amassment of wealth, is consequently the richest individual of the twentieth century. No one can realistically assess how much he is worth in terms of billions of dollars.

It is said, their wealth is so big that they could create sustainable social programs to end famine on earth, and have the power and the means to oppose wars, financial resources to create an Eco-friendly planet (the biblical heaven on earth).

It is interesting to note: Jesus the founder of Christianity was the poorest of the poor and today Roman Catholicism, which claims to be His church, is the richest of the rich, the wealthiest institution on earth. Its empire is so top-heavy with riches that it can rival and put to shame the combined might of the most formidable and impressive financial trusts, of the most powerful industrial super-giants, and of the most prosperous global corporation of the world.

Avro Manhattan concludes his book: "The Vatican Billions." with the following words, "Much of the world must wonder why an institution ruling in the name of the founder of Christianity, does not invest in making the planet a better place, by helping the poor, and investing in green technology? But, how can they when they have huge investments in oil and gas car manufacturers? In fact, the Iraqi and Afghanistan wars greatly enriched their financial investments. In conclusion, the religion that flows from the Vatican, is financially and morally corrupt.

As the founder of Bible House of Grace, I would like to thank the many Christian scholars, commentators and theologians who have gone before me, and the many today, who have freely made available their works to enhance the knowledge of the Bible to all people worldwide. It is only with the help of these faithful writers that much of Bible House of Grace exists as it does today.
